

Dear friends,

Summer ends with brio. The family spirit that has emerged in recent weeks and especially during At Home at Mike's, gives me a glimpse of a year full of success.

Each year, a new president is elected and this is the richness of Rotary. I would like us to imagine the Rotary of tomorrow together, and to think about new actions to be taken to support the causes that are dear to us.

It is obvious that we will participate in national actions such as the Food Bank, Espoir en tête and Jetons Cancer. The eradication of Polio remains one of our priorities at the international level, with our participation in the Action Climbing Like Ibrahim 2023.

Helping people is also at the heart of our program with actions such as visiting nursing homes and hospitals. We will also strengthen our interclub relations through local and international actions.

Dynamism, Solidarity, Sharing, Self-transcendence are essential values to achieve the goals we have set for ourselves this year. It is with these values and the diversity of the members that we will find an attractive club and that we will recruit the Rotarians of tomorrow.

As the year begins, let's give the best of ourselves!

Best Regards

**TERRAND CHRISTOPHE**

**President 2022-2023 RC Thonon Genevois International**
